

DTK500 Trailer DTK500 3010

The DTK 3010 trailer drain jetter is perfect for jetting in domestic or light commercial drainage systems. It works at 3000 psi and 10 gpm so it can tackle most drain jetting jobs.

Rear mounted controls make it easy for operators to monitor all the machine functions while safely cleaning the drain or sewer. The trailer has the latest LED lighting system making it easy to see even on the dullest days. It is lightweight and easy to tow by any compact van and it has a 500 litre water tank, enough for more than 10 minutes continuous jetting.

It will work efficiently in sewers up to 150mm diameter with the latest range of drain cleaning nozzles

The DTK 3010 trailer jetter will also power a floor cleaner or high pressure lance. This versatility makes it an ideal trailer jet for companies with multiple work flows.

Its latest low emission diesel engine, hydraulic hose reel and radio control system make it ideal for contractors who work alone and in urban environments.

The 7 channel radio control (option) lets the operator start, stop and vary pressure from up to 100m away. The handset is shock resistant and waterproof.

Model	DTK 500 3010 trailer
Pressure and Flow	Up to 200 bar / Up to 45 litres per minute (3000 psi / 10 gpm) Up to 170 bar / Up to 54 litres per minute (2500 psi / 12 gpm)
Pump	Speck NP25 triplex plunger pump
Engine	Stage 5 emission compliant water cooled diesel
Water Tank	Twin interconnected water storage tanks with a total capacity of 500 litres (110 gallons)
Frame	Box section steel shot blasted and powder coated
Hose Reel	Variable-speed hydraulic-rewind hose reel with 100m high-pressure hose capacity
Dimensions	3290 mm long x 1690 mm wide x 1350 mm high *
Weight	Dry weight from 800kg dry or 1300kg full *
Suggested Accessories	- 1/2" Standard jetting hose - 90m (300ft) - 3 x 1/2" Standard drain jets (3r, 3r1f & 6r) - 1/2" Safety leader hose - 3m (10ft) - 1/2" Drain jet extension - 9" - Inlet hose reel
